PROJECTS

ADVANCED EXPENSE TRACKER | HTML, CSS, JavaScript

- Developed a secure expense tracking web application with login authentication and Local Storage-based data persistence for user financial records.
- Implemented income, savings, investments, expenses, budget goals, recurring transactions, and bill reminders with automated expense updates.
- Built interactive financial dashboards featuring Pie Charts, Bar Charts, and comparative visualizations for spending analysis and budget tracking.
- Created an EMI calculator with repayment analysis, recurring expense integration, multi-currency support, and a responsive user interface.

PORTFOLIO WEBSITE | HTML, CSS, JavaScript

- Built a multi-section portfolio website featuring Home, About, Skills, Projects, Resume, and Contact sections with seamless navigation and a structured user experience.
- Enhanced interactivity through project filtering, typing animations, smooth scrolling, active navigation state tracking, and a downloadable resume feature powered by JavaScript.
- Integrated social media links, contact form, and responsive design to provide a professional online presence with an intuitive user experience
